# ABOUT ME

PHOTOGRAPHY 

“ Welcome to my portfolio. This is where I showcase my world, driven by a passion for capturing the energy of live events.

My core focus is event photography, specializing in the dynamic atmospheres of fashion shows, the artistry of the runway, and the vibrant energy of live music concerts. For me, a photograph isn't just an image; it's a story captured in a single frame ”

“ My goal is to build a career that merges these two worlds—blending my artistic eye for photography with my technical expertise in digital creation to tell compelling visual stories ”

@Tiakola - Zenith (Dijon)

“ This is where my two passions connect. My studies in web development, graphic design, and digital communication provide the technical skills to support my creative vision. I don't just take the photos; I'm learning to build the websites that host them, design the graphics that promote them, and create the multimedia strategies that make them impactful ”

# MUSIC

## FIRST PASSION

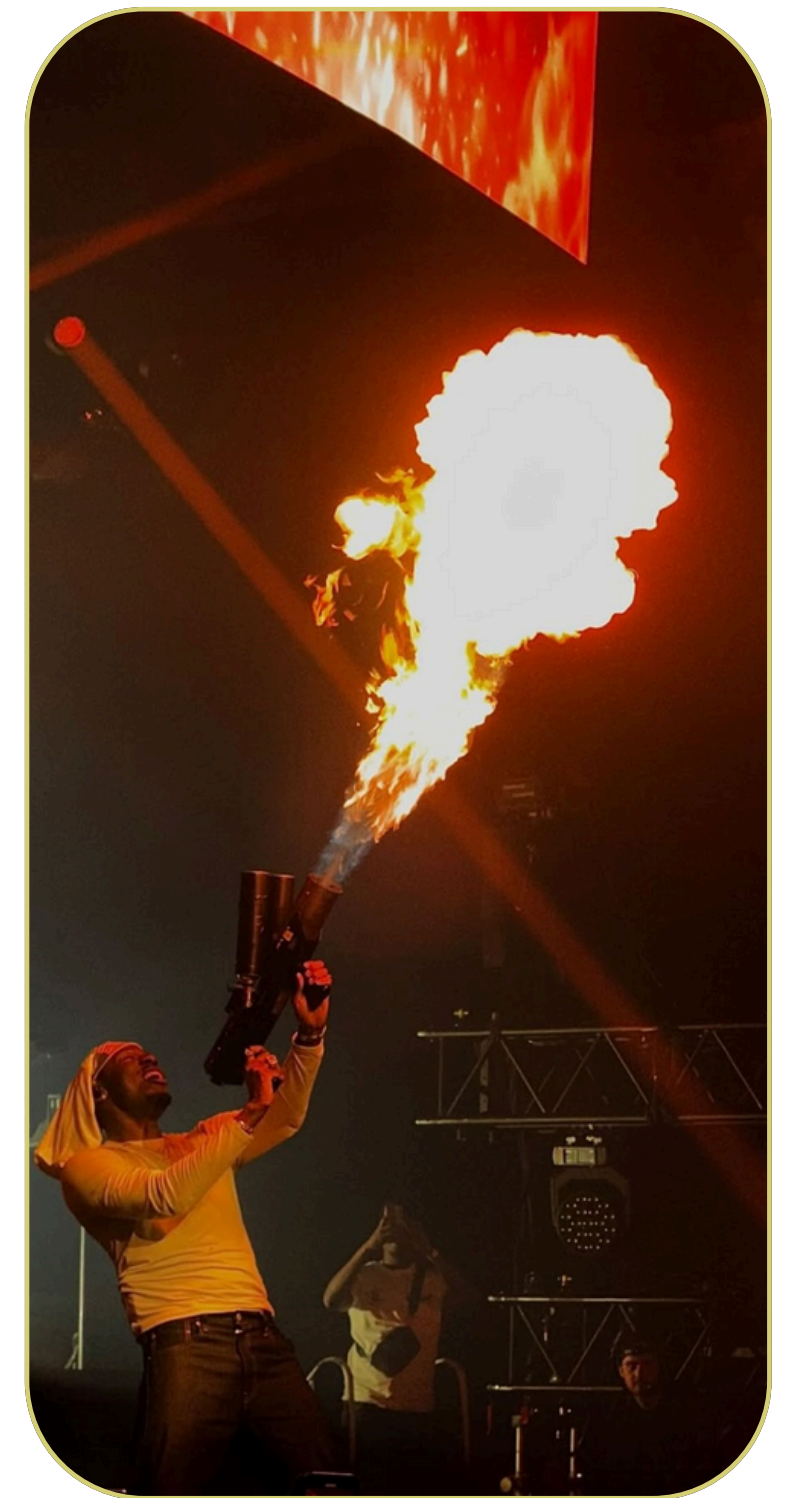

I have a huge passion for filming live music concerts, particularly those featuring French artists. Capturing the raw energy, the visuals, and the connection between the performer and the audience is an incredible feeling. My absolute favorite artist to film is Tiakola. As a major figure in the French rap and melodic scene, his performances

## SECOND PASSION

My passion also extends to the world of high fashion, especially in Paris, the ultimate city of style. I love exploring the luxury boutiques, soaking in the craftsmanship and heritage.

A huge part of this passion is capturing the artistry through photography, whether it's the dynamic energy of a runway show or the intricate details of a fashion exhibition. For me, the pinnacle of this world is Dior.

It stands out as my absolute favorite brand, representing a timeless elegance and creativity that I find endlessly inspiring.

📍 DIOR - Paris

While my goal is to constantly evolve my skills in photography, I see it purely as a meaningful side hobby rather than a future career path.

For me, all these events—like my favorite artists' concerts or fashion shows—are opportunities to capture a specific moment.

My photos are used to leave a tangible trace, a personal souvenir of every place I go. This is incredibly important to me. It ultimately doesn't matter if the photo is technically bad or absolutely beautiful; what truly counts is that it remains a registered memory of that experience.

# SOCIAL MEDIA

I actively share the content I create from these experiences on social-media. It's the perfect way for me to archive my passions and share the moments I've captured, whether it's the energy of a Tiakola concert or the elegance of a Dior exhibit, with a wider community.
